

TRANSPORTATION PLANNER

Develop your skills, advance your career, and grow with our firm.

Who We Are:

Carpenter Marty Transportation is a leading civil engineering firm that specializes in infrastructure and multimodal solutions. Our expertise lies in bridge, roadway, and traffic engineering; project management; public involvement; survey; right-of-way design; and operational analysis. This position is open within our Columbus, Ohio headquarters.

Day in the Life:

Join our team and help shape safe, accessible, and efficient transportation systems across our communities! As a crucial member of our team, you will support a variety of planning and engineering projects. Our portfolio includes active transportation planning, safety studies, school travel planning, trail and greenway studies, feasibility studies, access management and traffic calming, complete street designs, operational analysis, and private development studies. Our management style provides support for employees to thrive and develop their design passions into a fulfilling career. Your attitude, fit, and potential are valued just as much as your skill set. You'll receive one-on-one mentorship and hands-on guidance, as well as opportunities to attend trainings to network and keep informed on design criteria and policies.

You'll collaborate across disciplines in an open, team-oriented environment to produce high-quality analyses, plans, and reports that make a difference. You'll have the opportunity to contribute to all project phases from data collection and stakeholder engagement to final plan development and implementation support. The ideal candidate will support the planning, analysis, and implementation of projects through data-driven insights, spatial analysis, and visualization tools. This role requires a blend of technical GIS capabilities, planning expertise, and a passion for improving mobility and infrastructure systems.

Qualifications:

- Bachelor's Degree in Urban Planning, Civil Engineering, Geography, or a related field
- 0-2 years of experience
- Proficiency in GIS (ArcGIS Pro and/or QGIS required)
- Ability to work independently and as part of a multidisciplinary team
- Proficiency with Microsoft Office's suite of programs
- Strong analytical, writing, and communication skills
- Experience with public involvement and stakeholder engagement process
- Ability to comfortably jump between concurrent tasks and deadlines

Salary Range: \$66,000-\$76,000

Benefits:

- Competitive pay
- Bonus program
- Retirement plan
- Flexible schedule
- Paid time off and holidays
- Health savings account
- Paid parental leave
- Medical, dental, vision, life, and disability insurance
- Paid professional development, organizational membership, and exams
- Regular team building activities
- Open, collaborative offices
- Work from home Fridays
- Section 125/Dependent Care Assistance
